## SELECTED EXPERIENCE

### Port Lighting Systems

Lead Lighting and Second Tech | 2017 - Present

Oversee implementation of event designs. Evaluate and assign projects to crew members based on their strengths. Communicate with clients and outside vendors to fulfill their needs on site. Quickly adapt to the shifting needs of each project in order to execute the design and meet tight deadlines.

### Freelance Lighting Designer

Various Companies | 2013 - Present

Collaborate with a director and team of designers to create storytelling design elements. Devise a cohesive composition using light as a medium. Create comprehensive draftings in Vectorworks to submit to production and design teams. Maintained design integrity while adapting to changes.

### Watertown Children's Theatre

Designer | 2018 - Present

Lighting designer for the theatre production program. Teaching children and young adults in the creation of lighting elements: basics of design, programming ETC lighting boards, drafting with Vectorworks, wiring, and soldering.

### Assistant Lighting Designer/Master Electrician

Various Companies | 2014 - Present

Identify and assign tasks to be executed by crew. Hire and organize lighting crew based off of the designer's drafting. Liaise between design department and crew. Coordinate project/production schedule with design team and other crew leads. Track and manage budgets.
